Excerpt from A Descriptive Catalogue of the Antiquities of Gold: In the Museum of the Royal Irish Academy All probability gold - in Irish, Or - was, for the reasons stated at page 354 of Vol. I., the metal with which the primitive inhabitants of Ireland were first acquainted. A greater number and variety of antique articles of gold have been found in this than in any other country in North-Western Europe, from the Alps to the utmost inhabited limits of Norway, or Sweden. Records of these discoveries can be traced through all the works relating to the archaeology and history of Ireland, published during the last two hundred years, and are also preserved in the unpublished Minutes, as well as the printed Proceedings and Transactions of the Academy.
